

## Outstanding Partner

### **Riverside Medical Clinic**

Riverside Medical Clinic (RMC) has been a strong partner of the Riverside Community College District and the RCCD Foundation for many years, beginning with the leadership role its medical partners played in establishing RCC's nursing program in 1952.

Despite the economic downturn, RMC continues to invest in the local community. These efforts include its commitment of \$100,000 to help start a Radiology Technician Program at Moreno Valley College as part of the College's expansion of allied health programs.

Judy Carpenter, RMC's chief operating officer, serves as vice president of the RCCD Foundation's Board of Directors and is a member of the Chancellor's Circle on Innovation. She serves on the Moreno Valley College Allied Health Advisory Group and was also a prominent member of the Campaign RCC executive committee. RMC's chief executive officer, Steve Larson, M.D., strongly supports RMC's involvement with the Foundation and college district, noting that the relationship has proven highly successful, benefitting both organizations and local college students.

RCCD Foundation Director Amy Cardullo praised Riverside Medical Clinic, saying, "RMC has been an outstanding partner to the RCCD Foundation. Its efforts and commitment to expand allied health programs will have a tremendous impact on workforce development for our region."
