ERP Replacement Project Update May 2024

Christopher Blackmore

Associate Vice Chancellor, IT & LS

Project Nexus

New Enterprise Resource Planning/Student Information System (ERP/SIS)

Background

- Replacement of RCCD's current ERP/SIS, Ellucian Colleague.

- The Anthology suite of products were selected in the spring of 2020 with work beginning in fall of 2020 (Student, Human Resources, Finance, & Customer Relationship Management).

- Anthology products are Sofware as a Service (SaaS) reducing software support costs and improving business continuity.

- Delays primarily due to functionality gaps in the software and data quality issues.

Project Nexus Update (continued)

- Vendor has delivered 90% of requested functionality enhancements.

- Developed enhanced protocols and validation checks to improve the data quality.

- Extract/Transform/Load (ETL) 5 is underway
  - Data validation and Process Testing
  - Configuration of Faculty Workload Management
  - Student and Faculty Portal
  - Integrations with ancillary applications

- Completion of the project is anticipated in the late spring or summer of 2025.

Project Nexus Update (continued)

- Stabilization of the current ERP system
  - Replacement of WebAdvisor with Self-Service (Students Only)
  - WebAdvisor for faculty will receive enhanced security
  - Install patches and updates to the current system
  - Limit new software integrations
