Agenda and Minutes

1. Approval of Agenda
   Motion: Sinigaglia; Second: Alpay
   Approved, Unanimous

2. Approval of Minutes – September 15, 2026
   Motion: Alpay; Second: Sinigaglia
   Approved, Unanimous

Action Items

1. Curriculum Proposals

Discussion Items and Public Comment

1. CCN Phase 2B Implementation Standing Item
   a. Bryan Medina – SOC-1 has been launched and will be at the next Tech Review.
   b. Bryan Medina – Regarding EAR-20/CDEV-C1000, do we know if the other courses in EAR are also moving to CDEV, or if only EAR-20 is being moved?
      i. The committee discussed. Bryan will reach out to the facilitator with the recommendation that only EAR-20 be moved at this time.

c. Bryan Medina – Analysts will reach out to HRER, IT, and DE to notify them regarding the other discipline code changes.

2. SAAM Update – Casandra Greene
    a. Casandra sent an e-mail to the chairs with the remaining SAAM impacted courses as well as courses sent back to draft that have not been relaunched.
    b. There are proposals on the agenda we talked about today that are SAAM impacted that the programs have not come through with them, and so the courses also cannot move forward.

3. Lab Content on COR – Casandra Greene
    a. COCI is requiring that we separate lecture and lab content. Will need to determine if we want faculty to do separate lab content in Curriqunet even if not marked as TBA. There has not been a directive or a memo from the State, but they have put the fields in COCI.
    b. Steven Schmidt – We have the field for TBA Lab. If you have a Lec/Lab combo course, faculty should put the lab content into section.
    c. Nick Sinigaglia – Should label content fields separately as lecture content and lab content.
        i. The committee discussed the pros and cons of relabeling the content, including possible confusion for faculty and appropriate data management.
        ii. Bryan Medina – Recommend holding any changes until we have a slightly larger discussion.

4. TR Annual Process Check In – Bryan Medina
    a. Reminder that the remaining Tech Review meetings for the next catalog are October 20 and November 3. The November 10 college meeting is immediately followed by a special DCC at 4:30pm to approve items approved at college. This is the last possible approval for the catalog.
    b. There are roughly 150 items at the discipline/department level and at admin review. For October 20, the Analysts will schedule any proposals returned to draft and relaunched, any items launched by the deadline but just now arriving in the queue, and any items impacted by proposals currently on the TR agenda. For the remaining submissions, how does the committee want to proceed?
        i. Nick Sinigaglia – Would like to prioritize any curriculum being resubmitted due to articulation denials.
            1. Bryan will reach out to the group to get a list.
        ii. Kelly Douglass – Can we have a list of the items sent to us, and then we can discuss at the next TR?
            1. Bryan will provide a list.
    c. Bryan Medina – When does the committee want a draft calendar for 2027? If we use the same process next year, the timeline will be the exact same.
        i. Kelly Douglass – After Thanksgiving.

5. Open Forum
    a. Steven Schmidt – For a future discussion, we may want to discuss how we handle minor mods that have entrance skill links to historical courses. What triggers a minor mod needing to be resubmitted as a major mod? Perhaps discuss at the December meeting.
    b. Nick Sinigaglia – Do we send reminders to chairs regarding the upcoming deadlines?
        i. Bryan Medina – Yes, reminders will go out from the Analysts.
    c. Nick Sinigaglia – Concerned about the Title 5 fields not being accessible on a minor mod.

i. Bryan Medina – Minor mods are technically information items at the college level, and the committees need to review the content of those fields.
ii. Kelly Douglass – Recommend asking your faculty to split their proposal submissions into thirds, and then to submit them in Summer 2027, 2028, and 2029. This will help stagger the proposals over time.

6. Public Comment for all items on or not otherwise on the agenda.
    a. None

Adjournment: 4:42pm

Extensive Labs

ADJ 12L	**Introduction to Criminalistics Lab**	☐	☐	☑	**Hold**	Y	Y	Y
Contract defines extensive prep lab, the contract is not the purview of curriculum. The contract has historically defined/showed a pattern of approving extensive prep labs in STEM and nursing. Per the contract, are we missing a step? The contract lists the 7 criteria, and then any decision to change the status will be made by majority vote of the members of the affected discipline, forwarded to the VPAA for consultation, and then to the curriculum committees. Consultation and commentary from the VPAAs does not appear to be happening. Historically, VPAA consultation and comment may have been included with the proposal for the curriculum committees to consider. The committee discussed that the proposals should be sent to the VPAA for their consultation, and the form should be updated. Additionally, how do we evaluate criteria 7 regarding the equivalent lab?
