

Scenarios

Department Chairs and Enrollment Management Retreat

April 28, 2023

Scenario 1

- College A cancels a section of Mathematics 1A which has an enrollment of 60%.
- College B does not cancel a section of Math 1A that has an enrollment of 48%.
- What are your thoughts on this? What reasons might each college have for these actions? How do we reconcile this as a district?

Scenario 2

- For a particular course, below are the college offerings by modality.

| College | F2F | HYB | ONLINE | Grand Total |
|--------------------|-----------|----------|-----------|-------------|
| College A | 1 | 1 | 8 | 10 |
| College B | 5 | | 5 | 10 |
| College C | 6 | | 4 | 10 |
| Grand Total | 12 | 1 | 17 | 30 |

- What are your thoughts on this? How do we adjust our course scheduling modalities, meeting days and times, etc. to best meet student needs? What districtwide principles might we consider?
