- Brady Kerr- Associate Professor, Music, at NOR. As of April 26th, 2017 Dr. Regino recommended that Brady's request be approved: *“Dear Colleagues, I had thought I sent an e-mail re: Mr. Kerr a while ago, when I spoke to Susan Boling in HR about his situation. In any case, Susan says that all she needs is an approval from this committee in order to give him his salary upgrade. Even though this committee had not seen his original proposal, his degree was obtained shortly after hire last year and he didn't have time to submit one. Degree programs that are conferred for faculty seem to fall into an automatic approval process once the degree is conferred. I recommend this committee approve Mr. Kerr's salary reclassification based upon completion of his degree last year.”*
