NORCO COLLEGE

YOUR FUTURE *Starts Here*

WELCOME TO NORCO COLLEGE!

At Norco College, we offer affordable and accessible education right here in your community. Whether you are a recent high school graduate, a working professional looking to enhance your skills, or returning to pursue a fresh start, we are ready to help you succeed.

With programs organized into eight pathways, highlighted in this guidebook, and services like academic planning, career guidance, tutoring, and financial support, Norco College is here to empower your future.

Visit **norcocollege.edu/futuremustangs** to learn more.

STEPS TO APPLY

1 Apply to Norco College at norcocollege.edu/enroll

Complete the online admission application and watch for your Welcome email that includes your student ID number and next steps. *Applications are typically processed within two business days; if you don't receive a Welcome email within 7 business days, contact Admissions & Records.*

2 Apply for Financial Aid

Complete one of the following applications as early as possible:

FAFSA (Free Application for Federal Student Aid) for U.S. citizens and eligible non-citizens: fafsa.gov | School Code: 041761

CADAA (California Dream Act Application) for eligible undocumented students: dream.csac.ca.gov | School Code: 04176100

Applying early can help maximize your financial aid opportunities, contact Student Financial Services to receive help on completing your application.

3 Activate Your Student Email

Set up your student email through MyPortal, wait at least 48 hours after submitting your application. Your student email is the college's primary method of communication.

APPLY TODAY!

4 Complete Orientation and Counseling

First-time college students should:

- ☐ Review your placement information in MyPortal.
- ☐ Complete the online orientation.
- ☐ Meet with a counselor to create an education plan and select classes.

5 Enroll in Classes

Check your registration date in MyPortal and enroll in courses when your registration date opens.

6 Pay Fees and Get Books

Before classes begin:

- ☐ Pay enrollment and student fees.
- ☐ Purchase or rent required textbooks.
- ☐ Obtain a parking permit if needed.

BECOME A MUSTANG

Join a community that is committed to your success. From your first campus visit to your first day of classes, the Norco College team is here to help you become a Mustang.

- Faculty committed to providing you with a high-quality education that prepares you for success in the workforce or in transferring to a four-year institution.
- Student-faculty ratio is 30-to-1.
- Wide range of academic programs with transfer agreements.
- Earn-as-you-learn apprenticeship programs partner with top businesses in the Inland Empire and make you a strong candidate for the workforce.
- Our dedicated team of advisors, tutors, and counselors are available to support you every step of the way, from selecting classes to navigating financial aid.
- Student engagement and leadership opportunities through clubs, organizations, and events.

College is Affordable at Just $46 a Unit

FINANCIAL AID

The Norco College Student Financial Services Department is committed to helping you secure the financial resources you need to reach your educational goals. You can get assistance with grants, loans, scholarships, and federal work-study funds to help cover your educational expenses.

Financial aid comes in many forms at Norco College. Learn how you can go to college for FREE through our Promise program. Scholarships are also available.

10 THINGS We Love ABOUT NORCO COLLEGE

1

Admissions and Records

Provides support for applying to Norco College, registering for classes, accessing student records, ordering transcripts, and completing enrollment-related forms and services.
Phone: (951) 372-7002
Email: admissions@norcocollege.edu
Website: www.norcocollege.edu/admissions

2

Athletics

Supports student-athletes through competitive athletic programs that foster academic success, leadership, teamwork, and personal development.
Phone: (951) 372-7017
Email: athletics@norcocollege.edu
Website: https://athletics.norcocollege.edu

3

Basic Needs and Wellness

Connects students with resources and support for food, housing, wellness, and other essential needs to help them thrive academically and personally.
Phone: (951) 738-7250
Email: basicneeds@norcocollege.edu
Website: www.norcocollege.edu/basicneeds

4

Counseling Services

Provides academic, career, and transfer counseling, educational planning, graduation support, and guidance to help students achieve their educational goals.
Phone: (951) 372-7101
Email: counseling@norcocollege.edu
Website: www.norcocollege.edu/counseling

5

Disability Resource Center

Ensures equal access to education by providing accommodations, support services, and resources that promote student success, self-advocacy, and independence.
Phone: (951) 372-7070
Email: drc@norcocollege.edu
Website: www.norcocollege.edu/drc

6

Dual Enrollment

Allows high school students to earn college credit for free while still in high school, helping them save time and money on their educational journey.
Phone: (951) 738-7797
Email: DualEnrollment@norcocollege.edu
Website: www.norcocollege.edu/dualenrollment

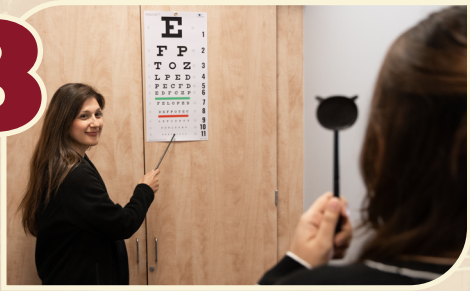

7

EOPS/CARE/NextUP

Offers comprehensive support services, counseling, and resources for eligible students, including first-generation college students, low-income students, single parents, and current or former foster youth.
Phone: (951) 372-7128
Email: eops@norcocollege.edu
Website: www.norcocollege.edu/eops

8

Health Services

Promotes student well-being by providing health education, wellness resources, and support services that help students maintain their physical and mental health.
Phone: (951) 372-7046
Email: studenthealth@norcocollege.edu
Website: www.norcocollege.edu/healthservices

9

Student Life and Clubs

Enhances the college experience through student organizations, leadership opportunities, campus events, community engagement, and co-curricular activities.
Phone: (951) 372-7021
Email: studentlife@norcocollege.edu
Website: www.norcocollege.edu/studentlife

10

Veterans Resource Center

Supports veterans, active-duty military members, reservists, and military dependents by providing resources, educational benefits assistance, and services that support academic success.
Phone: (951) 372-7142
Email: veterans.services@norcocollege.edu
Website: www.norcocollege.edu/veterans

STUDY ABROAD PROGRAM

Experience the World While Earning College Credit

The Riverside Community College District (RCCD) Study Abroad Program provides high-quality international education opportunities that help students develop cultural competency and global citizenship through firsthand experiences of global diversity.

Why Study Abroad?

- Earn transferable RCCD credits abroad
- Immerse yourself in new cultures and languages
- Strengthen your résumé for transfer and career opportunities
- Build lifelong global connections
- Scholarships are available to help offset expenses

Learn more about upcoming information sessions, costs, and application steps at: rccd.edu/sa.

> **Study Abroad** made me a more **capable** student and person, and I've got a **stronger** résumé to back it up.
> – Adam Bahrawy, Norco College Student
> Japan, Summer 2025

VETERANS RESOURCE CENTER

Veterans Resource Center

The Veterans Resource Center (VRC) at Norco College is dedicated to supporting veterans, active-duty service members, reservists, and their dependents as they transition into and succeed in higher education. The center provides a welcoming environment where students can access academic, benefits, and personal support servicexs while pursuing transfer pathways, associate degrees, or career technical education programs. The VRC is committed to honoring military service by ensuring students receive the guidance and resources needed for a successful college experience.

Services Offered

- Priority registration support for eligible veterans and active-duty members
- Assistance with VA education benefits (GI Bill®, Chapter 30, 31, 33, 35, etc.)
- Academic advising coordination and educational planning support
- Military withdrawal (MW) processing for active-duty deployment situations
- Credit for prior military learning and experience guidance
- Support with forms, certification, and VA paperwork
- Connection to campus and community veteran resources

DUAL ENROLLMENT

Earn College Credit in High School

Dual Enrollment allows high school students to take Norco College courses while still in high school. Classes are taught by college professors at the student's high school campus or online. Students can begin building college experience early, gaining a head start on their educational and career goals while still working toward high school graduation.

This program helps students explore different academic pathways, experience college-level expectations, and move more quickly toward their chosen major. Most courses are CSU and UC transferable, and students earn official Norco College credit upon successful completion.

Key Benefits

- Courses taught by college professors
- Earn college credit in high school
- No tuition or fees
- Courses offered at high schools or online
- No travel required to Norco College campuses
- CSU and UC transferable course options available
- Official college transcript credit earned

CREDIT FOR PRIOR LEARNING

Fast-Track Your Future at Norco College

Credit for Prior Learning (CPL) at Norco College turns experience into opportunity. CPL allows students to convert real-world experience such as military service, professional work, industry certifications, and apprenticeships into college credit. By recognizing what you already know, CPL helps you save time, reduce costs, and move more quickly toward a degree or certificate. Norco College proudly values the skills and knowledge of veterans, working adults, and apprentices. CPL is the pathway that transforms your experience into academic credit, helping you reach your education and career goals faster. Eligible students may earn up to one year of college credit, accelerating skill development, expanding career opportunities, and positioning themselves for long-term success.

Services Offered:

- Credit for military training and service
- Credit for industry certifications and licenses
- Apprenticeship credit pathways
- Credit evaluation for prior work and life experience
- CPL eligibility and academic record review
- Dedicated counselor for support
- Access to approved CPL opportunities and keyword search tool

38 Associate Degree Programs

46 Certificate Programs

23 Transfer Programs

APPLIED TECHNOLOGIES AND APPRENTICESHIPS

Get hands-on experience in high-demand fields like manufacturing, construction, and supply chain technology. Our applied programs offer practical skills that employers are seeking, providing you with the credentials and experience needed to thrive in today's fast-paced industries. Some programs even offer earn and learn opportunities.

APPRENTICESHIPS:

Serves as a Local Education Agency (LEA) for registered apprenticeship programs, partnering with industry, labor organizations, and training centers so apprentices earn while they learn through paid on-the-job training and related college instruction.

BIOMEDICAL ELECTRONICS EQUIPMENT REPAIR:

Learn to repair life-saving equipment like ventilators, monitors, ECG machines, and defibrillators, combining high-tech electronics with patient care.

ARCHITECTURE:

Focuses on the design and planning of buildings and structures, emphasizing creativity, technical skills, and an understanding of architectural history and theory.

CARPENTRY:

Involves the practical skills of cutting, shaping, and installing building materials, preparing students for careers in construction and woodworking.

CONSTRUCTION:

Covers the processes and management techniques involved in building projects, equipping students with the knowledge needed for various roles in the construction industry.

DRAFTING:

Teaches the creation of technical drawings and plans for buildings and products, using software and traditional methods to communicate design concepts effectively.

ELECTRICITY:

Focuses on the principles of electrical systems and wiring, preparing students for careers in electrical installation, maintenance, and troubleshooting.

ELECTRONICS:

Examines the principles of electronic circuits and devices, providing students with the skills needed to work with and troubleshoot electronic systems.

MANUFACTURING:

Focuses on the processes and technologies involved in producing goods, emphasizing efficiency, quality control, and modern manufacturing techniques.

SUPPLY CHAIN AUTOMATION:

Covers the integration of technology and automation in supply chain processes, preparing students to streamline operations and improve efficiency in logistics.

SUPPLY CHAIN TECHNOLOGY:

Examines the use of technology in managing and optimizing supply chain activities, equipping students with skills in inventory management, procurement, and logistics.

BUSINESS AND MANAGEMENT

Prepare for success in the business world with programs designed to equip you with essential skills in management, marketing, and entrepreneurship. Whether you are aiming to lead teams, start your own business, or advance in a corporate environment, we provide the tools to help you succeed.

ACCOUNTING:

Focuses on the principles and practices of financial reporting, taxation, auditing, and management accounting, providing students with the skills needed to analyze and interpret financial data.

BUSINESS ADMINISTRATION:

Covers a broad range of business concepts, including management, marketing, finance, and operations, equipping students with the knowledge to succeed in various business environments.

ENTREPRENEURSHIP:

Encourages students to develop innovative business ideas and understand the fundamentals of starting and managing a business, including funding, marketing, and growth strategies.

LOGISTICS MANAGEMENT:

Examines the processes involved in the planning, implementation, and control of the movement and storage of goods and services, emphasizing supply chain management and operational efficiency.

PAYROLL:

Teaches the skills necessary for managing employee compensation, including payroll calculations, tax compliance, and record-keeping, ensuring students are prepared for roles in human resources and finance.

REAL ESTATE MANAGEMENT:

Focuses on the principles of property management, real estate investment, and market analysis, preparing students for careers in the real estate industry.

TAX PREPARER:

Focuses on the principles and practices of tax preparation, including income tax laws, deductions, credits, and filing requirements, equipping students with the skills needed to assist individuals and businesses in accurately preparing and filing their tax returns.

SCHOOL OF

COMMUNICATION, HUMANITIES AND LANGUAGES

Explore the world of human expression and cultural understanding through our programs in communication, humanities, and languages. Whether you are studying media, literature, or world languages, our pathways prepare you for careers in education, journalism, public relations, and more.

ACADEMIC LITERACY & READING:

Focuses on developing essential reading and comprehension skills necessary for success in college-level coursework, emphasizing critical thinking and analysis.

CHINESE:

Offers students the opportunity to learn the Chinese language and explore its culture, history, and literature, fostering cross-cultural communication skills.

COMMUNICATION STUDIES:

Examines the principles and practices of effective communication across various contexts, including interpersonal, group, and public speaking.

ENGLISH:

Provides a comprehensive study of literature, composition, and language, enhancing students' writing and analytical skills while fostering a love for reading.

FRENCH:

Introduces students to the French language and Francophone cultures, emphasizing conversational skills, grammar, and cultural understanding.

ENGLISH AS A SECOND LANGUAGE (ESL):

Supports non-native English speakers in improving their language proficiency through focused instruction in reading, writing, listening, and speaking.

HUMANITIES:

Explores the study of human culture, including literature, philosophy, history, and the arts, encouraging critical thinking and an appreciation for diverse perspectives.

JAPANESE:

Offers students the chance to learn the Japanese language while exploring its culture, traditions, and literature, promoting intercultural understanding.

JOURNALISM:

Focuses on the principles of reporting, writing, and editing for various media platforms, equipping students with the skills necessary for careers in news and media.

PHILOSOPHY:

Examines fundamental questions about existence, knowledge, ethics, and reality, fostering critical thinking and encouraging students to explore various philosophical perspectives.

SPANISH:

Offers instruction in the Spanish language and Hispanic cultures, enhancing communication skills and cultural awareness for personal and professional growth.

HUMAN AND PUBLIC SERVICES

Prepare for a rewarding career in law enforcement, social services, or education. Our specialized programs in Administration of Justice, Child and Adolescent Development, and Early Childhood Education give you the foundation to succeed in these essential fields.

ADMINISTRATION OF JUSTICE:

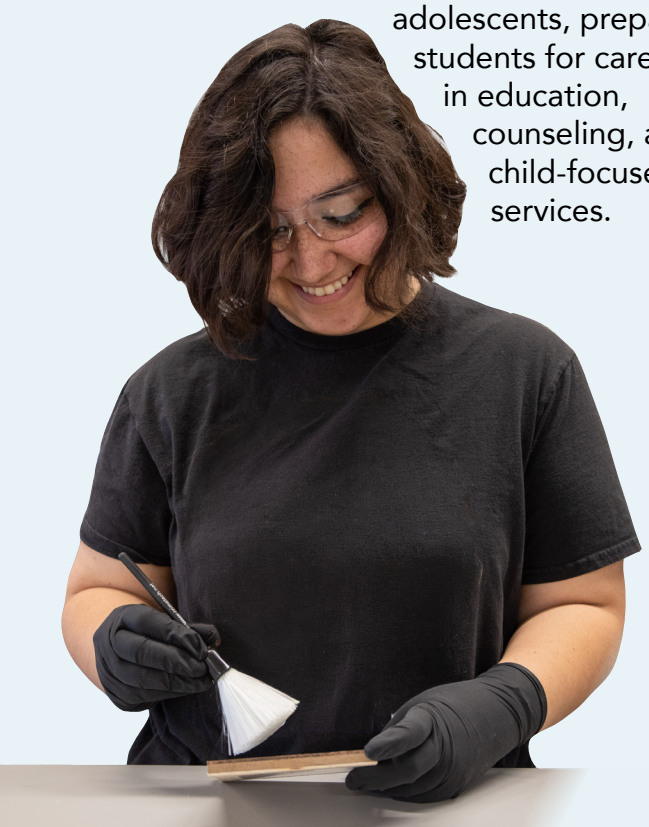

Covers the criminal justice system, including law enforcement, courts, and corrections, preparing students for careers in policing, probation, legal studies, and public safety.

ADMINISTRATION OF JUSTICE - CORRECTIONS:

Provides students with the knowledge and exposure to the legal considerations and best practices of correctional administration while also preparing students to the fundamental professional principles within the field of corrections.

CHILD AND ADOLESCENT DEVELOPMENT:

Examines the physical, cognitive, emotional, and social development of children and adolescents, preparing students for careers in education, counseling, and child-focused services.

CRIME SCENE INVESTIGATION (CSI):

Focuses on the collection, analysis, and preservation of physical evidence from crime scenes, using forensic science techniques to aid in criminal investigations.

EARLY CHILDHOOD EDUCATION:

Prepares students to work with young children (birth to age 8) by developing foundational skills in child development, learning environments, and teaching strategies to foster early learning and growth.

EARLY CHILDHOOD EDUCATION ASSISTANT:

Prepares students to support educators in early childhood settings, providing care and assistance to young children while facilitating their learning experiences.

EARLY CHILDHOOD EDUCATION: INTERVENTION ASSISTANT:

Focuses on equipping students with the skills to assist children with special needs, implementing intervention strategies, and supporting inclusive educational practices.

MODERN POLICING:

Guides students toward careers in law enforcement and policing, at local, county, state and federal law enforcement agencies. The program provides a seamless transfer to a four-year university.

SCHOOL OF

MATH, ENGINEERING, COMPUTER SCIENCE & GAME DEVELOPMENT

Launch your career in high-demand fields like math, engineering, computer science, and gaming. Our programs are designed to equip you with the skills needed for both immediate employment anwd further education at a four-year university.

COMPUTER APPLICATIONS AND OFFICE TECHNOLOGIES:

Focuses on mastering software applications (like Microsoft Office) and office technology tools to enhance productivity, including word processing, spreadsheets, databases, and business communications.

COMPUTER INFORMATION SYSTEMS (CIS):

Blends business and technology, emphasizing the design, implementation, and management of information systems to support organizational operations and decision-making.

COMPUTER SCIENCE:

Studies the theory and development of software and computing systems, including areas like programming, algorithms, data structures, artificial intelligence, and cybersecurity.

DATA SCIENCE:

Involves analyzing and interpreting large datasets using statistical, computational, and machine learning tools to discover insights, patterns, and trends for decision-making.

ENGINEERING:

Applies scientific and mathematical principles to design, build, and improve structures, machines, and systems, with various fields such as civil, electrical, and mechanical engineering.

MATHEMATICS:

Explores the concepts of numbers, patterns, structures, and change, offering a foundation for solving complex problems in fields like science, finance, and engineering.

MULTIMEDIA-SIMULATION & GAME DEVELOPMENT:

Combines elements of design, programming, and storytelling to create interactive games, simulations, and multimedia experiences for entertainment and training purposes.

MATHEMATICS, ENGINEERING, & SCIENCE ACHIEVEMENT PROGRAM (MESA)

Pursuing a STEM Career? MESA Can Help You Succeed!

The Mathematics, Engineering, & Science Achievement (MESA) Program supports underserved and underrepresented students in math and science-based fields.

As a MESA member, you will join a dedicated community of students, faculty, counselors, and staff—all focused on your success in STEM. MESA offers unique opportunities like internships with local industries and personalized mentorship from Norco's STEM faculty and a dedicated MESA counselor.

MESA provides specialized tutoring and counseling to ensure your success in college and beyond.

For more information, contact mesa@norcocollege.edu.

SCHOOL OF

NATURAL SCIENCES, HEALTH AND KINESIOLOGY

Pursue a career in health, wellness, and science with programs that prepare you for a wide range of fields. Whether you are interested in biology, kinesiology, or health sciences, our programs provide the foundation for careers in healthcare, fitness, and scientific research.

BIOLOGY:

The study of living organisms and their interactions with the environment, covering topics such as genetics, evolution, ecology, and cellular processes.

CHEMISTRY:

Focuses on the composition, structure, properties, and reactions of matter, exploring concepts such as chemical bonding, reactions, and the behavior of substances.

ENVIRONMENTAL SCIENCE:

An interdisciplinary field that examines the interactions between humans and the environment, addressing issues like pollution, conservation, and sustainability.

GEOGRAPHY:

The study of the Earth's landscapes, environments, and the relationships between people and their environments, covering physical geography, human geography, and spatial analysis.

HEALTH SCIENCE:

Focuses on the study of health, wellness, and healthcare practices, preparing students for careers in healthcare fields such as nursing, public health, and health education.

KINESIOLOGY:

The study of human movement, encompassing biomechanics, anatomy, physiology, and the impact of physical activity on health and performance.

PHYSICAL SCIENCE:

A broad field that encompasses the study of non-living systems, integrating concepts from physics and chemistry to understand the natural world and its processes.

PHYSICS:

The study of matter, energy, and the fundamental forces of nature, exploring concepts such as motion, forces, energy, and the behavior of particles at both macroscopic and microscopic levels.

SOCIAL AND BEHAVIORAL SCIENCES

Dive into the study of human behavior and society. Whether you are interested in psychology, sociology, or anthropology, our programs provide a strong foundation for careers in social work, counseling, research, and more.

ANTHROPOLOGY:

The study of humans, their societies, cultures, and development, exploring topics such as cultural diversity, evolution, and archaeological findings.

HISTORY:

Examines past events, societies, and cultures, providing insights into how historical contexts shape contemporary issues and human behavior.

POLITICAL SCIENCE:

The study of government systems, political behavior, and public policies, equipping students with an understanding of political processes and their impact on society.

PSYCHOLOGY:

The scientific study of the mind and behavior, exploring topics such as cognition, emotion, personality, and mental health, preparing students for careers in counseling, research, and human services.

SOCIOLOGY:

Focuses on the study of social behavior, institutions, and structures, examining how they influence individual and group dynamics in various contexts.

SCHOOL OF

VISUAL AND PERFORMING ARTS

Bring your creativity to life with our dynamic programs in visual and performing arts. From audio production and photography to theater and music, our courses prepare you for a variety of careers in the arts, entertainment, and media industries.

ART HISTORY:

The study of visual arts and their historical development, exploring various movements, styles, and cultural contexts that have shaped artistic expression throughout time.

STUDIO ARTS:

Encompasses hands-on creative practices such as painting, sculpture, and drawing, allowing students to develop their artistic skills and personal style in a supportive environment.

AUDIO PRODUCTION:

The technical and artistic process of recording, mixing, and producing audio for music, film, and multimedia, equipping students with skills for various roles in the industry.

PERFORMANCE:

Concentrates on the art of live presentation in music, dance, or theater, developing skills in stagecraft, interpretation, and audience engagement.

MUSIC INDUSTRY STUDIES:

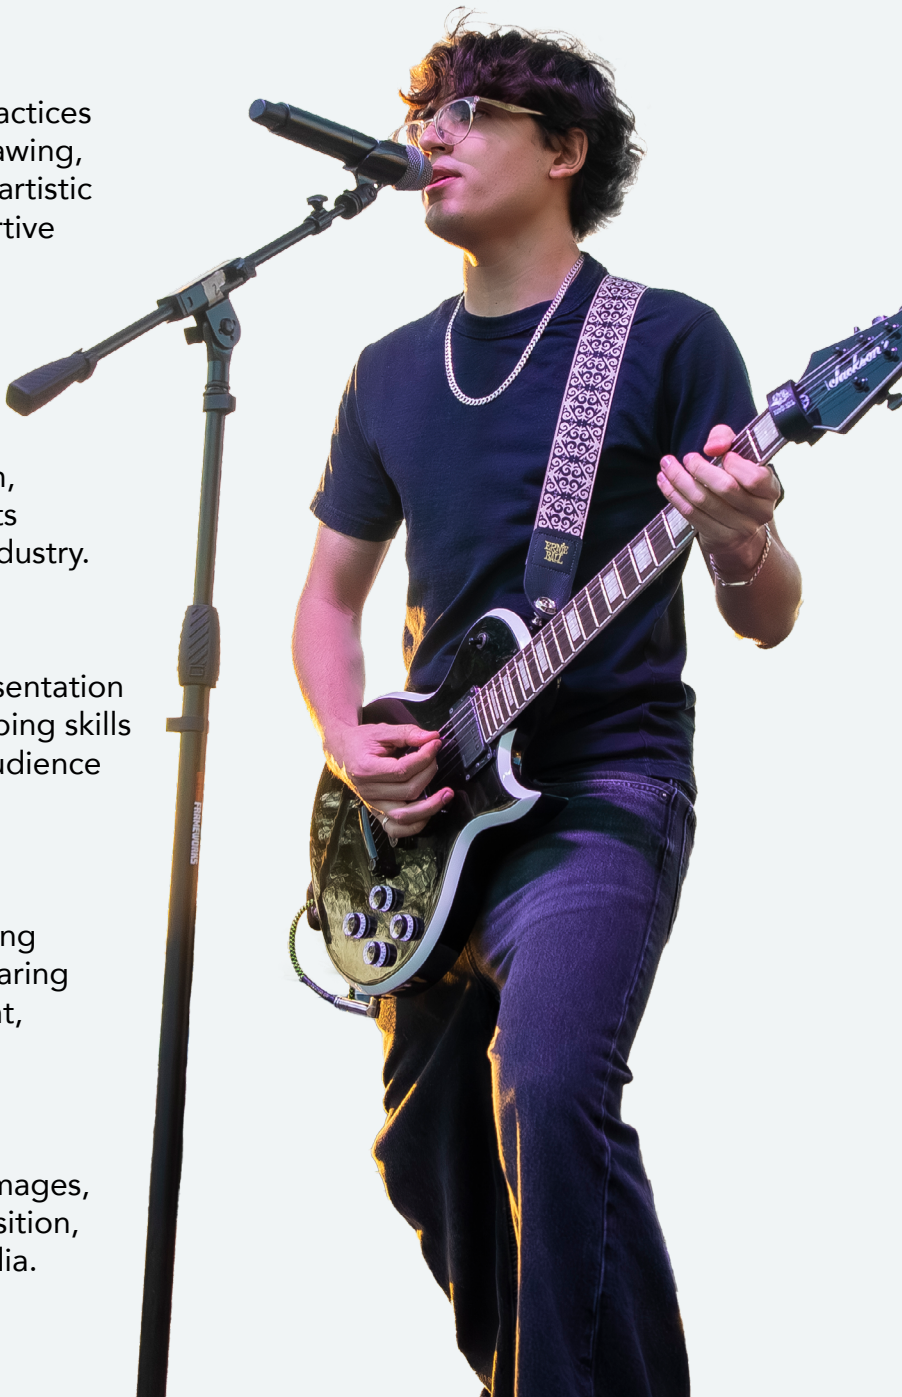

Examines the business and marketing aspects of the music industry, preparing students for careers in management, promotion, and music distribution.

PHOTOGRAPHY:

The art and practice of capturing images, focusing on technical skills, composition, and storytelling through visual media.

ART:

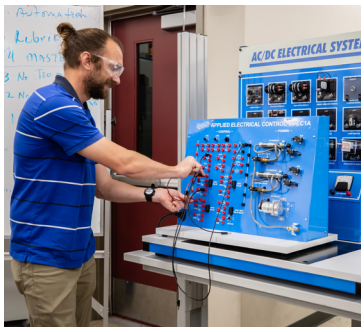

A broad field encompassing various forms of creative expression, encouraging students to explore their artistic interests and develop a personal voice through diverse mediums and techniques.
